**'hidden animal games learn
animal camouflage**

May 31st, 2020 - the
specific nature of this
camouflage varies
considerably from animal
to animal however for most
animals blending in is the

most effective approach
examples include the earth
tones of deer squirrels or
moles to match trees or
dirt or the bination of
blue skin and white
underbelly of sharks which
makes them difficult to
detect from both above and
below''classroom
