'american madness the

rise and fall of dementia praecox

June 5th, 2020 - the three experts for the defense all agreed this time the diagnosis was manic depressive insanity a syndrome named and described by emil kraepelin in 1899 as with dementia praecox in the first trial the second trial did much to introduce the american public to yet another of kraepelin s concepts'

'origin and development of concepts of bipolar mixed states

April 14th, 2020 - 1 from ancient times to kraepelin although the first descriptions of mental disorders which could be characterized as mixed states have their roots in the work of the greek physicians of classical

times especially
hippocrates 460 337 bc
and aretaeus of
cappadocia a greek
physician of the first
century bc the creator of
the concept as we
understand it today
is"manic depressive

concepts of bipolar mixed
state'

'clinical description
springerlink

April 27th, 2020 - abstract
modern approach
distinguishes between
mood which is the long
lasting internal emotional
tone and largely
characteristic of the
individual affect which is
the general emotional
status during the last few
days or weeks and it is
observable through the
individual s behaviour
and emotion which
corresponds to the
transient emotional state
which also manifests
itself"??????????
