Stochastic process

*May 5th, 2020 - Markov processes form an important class of stochastic processes and have applications in many areas 40
202 For example they are the basis for a general stochastic simulation method known as Markov chain Monte Carlo which
is used for simulating random objects with specific probability distributions and has found application in Bayesian statistics'*

'High Dimensional Nonlinear Diffusion Stochastic Processes

April 26th, 2020 - This book is the first one devoted to high dimensional or large scale diffusion stochastic processes DSPs with nonlinear coefficients These processes are closely associated with nonlinear Ito s stochastic ordinary differential equations ISODEs and with the space discretized versions of nonlinear Ito s stochastic partial integro differential equations"
